Persons of Consumptive Habits, Read This!

TO THE GRÆPENBURG COMPANY : For the first time in my life an induced to cert fy to the truly wonderful effects of a popular medicine, but in sending you the
certificate I feel that I am only discharging a duty that I
owe to the Græfenberg Company, and more especially to suffering humanity.

At out the first of June last I had a negro man taken with a Cough, attended with resilessness, spitting of blood and other dangerous symptoms of consumption. I immediately called in a truly skiful and scientific physician, who told me it was a case of consumption. He treated him who told me it was a case of consumption. He treated him for several weeks, but he gradually grew worse. I then had another physician of great reputation in it in gid cases. He examined him, and a so decided it to be a hopeless case of consimption, and said it was useless to spend money in try-

ing to cure him.

I had previously promised the Grae'enberg Agents here, (Messrs Wells & I owell,) that when the doctors gave him up I would try the Grae'enberg Comsumptive's Balm. I did so and to my agreeable surprise, the man began to leprove after taking only five or six doses. He took only two bottles of the Baim and three bottles of the Graefenberg Sarsapar I the Baim and three bottles of the Graefenberg Sarsapar I. a Compound, which cost me the small sum of nin and t) dry I consider him entirely cored. He is worth \$1 200, and he is doing me good ervice on the plantation. consider him perfectly ound and we I as he is fat, hearty and strong, without a vestige or sign of disease left.

JOHN MYELS, I have used the Græfenberg Consumptive's Balm in se-

vere cases of Consumption, in my practice, with the hap-plest effect. I wish all would use it. 8. MEDARIS, M.D., Totten's Wells, Tenn. Totten's Wells, Tenn.

The Gamfenberg Consumptive's Balm will effectually cure Consumption and all Complaints of the Lungs. In case of Cold on the Lungs and Ches', Languor combined with Difficult Breathing, Pains in the Chest, and Bronchias, the Gamfenberg Consumptive's Balm will effect a complete cure and prevent the disease from becoming a confirmed Consumption. In all cases delays are diagrams. They are so an hundred fole to all diseases having a tendency to Consumption. We arrived advise all to procure the Consumption. sumption. We e-rnestly advise all to procure the Con-Sumptive's Ealm in season.
The price of the Consumptive's Balm is \$8 per bottle.

THE GREATEST INVENTION OF THE AGE. West's Patent Galvanic Cement For Roofing.

The subscriber is now prepared to cover roofs of buildings, with a new and better article than ever-before known. The public are aware that our Government has had scientific men experimenting, and that it has been the study of Architects and Builders, for years, to discover an article for roofing purposes, that would stand the sudden changes of the weather, and be imnervious to fire and water, and remain a permanent fixture. As yet, nothing has been attained without costing more than the people wish. The contraction, expansion and rusting of metal roofs, are so great in changeable climates, that they become useiers, unless being repaired at great expense yearly. Chingles are not fire proof, and cannot be used on flat roofs, and the various Compositions and Cements that have been brought into use for roofing, do not stand the action of the weather, but they run when it is warm, and crack when frosty, and after one or two years become crumbly, and worthless; whereas, the inventor of the Galvanic Cement, has labored twenty years to combine articles to obviate those difficulties, and can testify from his long experience, and numerous te timonials from reliable persons, who have had his combination applied to their buildings, that his Cement is the cheapest and best aticler ever before known. The combination of this Cement is such that it is calculated for entire new roofs, flat or steep, covering over old shingles without removing them; lining eave-troughs, seaming around battlements, chimneys and sky-lights. Covering car-tops, steamer-decks, &c. This Cement, by its non-conduction and galvanism, prevents metal roofs from rusting and unsoldering, and resists the extremes of heat and cold, better than any thing ever invented, for entire roofs or for covering metal and the out side of wood buildings, making them fire proof. Its appearance is like slate; beautiful for the right to the State of humble cottage.

The undersigned having secured the right to the State of Ternessee, will sell rights of Territory, by Counties or Towns, on reasonable terms.

The subscriber is also prepared to cover roofs of buildings, in any part of the State, at short notice.
This Roof is now being put on in this city, for the bene-

fit of all concerned, and warranted to excel all other mode of Roofing. The subscriber has had his mode of Roofing tested as he its qualities, during the last year and a half in the city of Memphis, which has proved satis actory, to which a number of the nost prominent citizens can For further information enquire at the office, where samples may be seen. MEMPRIS, March 2, 1857. W. S. ERNETT, Frq. - Dear Sir. - The facts within our knowledge of the durability, &c., of West's Galvanic Ce-ment; are these: The building you covered for us last ment; are these: The building you covered for us last poring, I am happy to state las ans ered our expectations. We can therefore recommend it to the public for all roof-ing purposes; as a light, cheap, fire and water proof roof. It does not get roft and run from the effects of the heat of the sun; nor does it harden and crack from the effects of the cold. Any persons wishing to know more of this article, can call at our manufactory.

MEMPHIS, TENS , Dec, Sth, 1856. To whom it may concern. This is to certify that W. S Bennett covered two roofs for me last spring, with a comtion called West's Patent Galvanic Cement one of then was a new deck, the other an old shingle roof, which are giving perfect satisfaction. He also repaired a dor-mer window, which leaked badly, and had baffled the skill of Carpeniers to prevent its leaking, which he succeeded in making perfectly tight. I do most cheerfully recom-mend his move of rooting to the public, for all roofing curposes, and believe it to be a permanent fixture against Proprietor Commercial Hotel.

EUPERINTENDENT'S OFFICE, MEMPHIS & OHIO R. R. MEMPHIS, TENN, Feb. 19, 1857.
MR BENNETT,—Dear Sir:—Our company having been troubled very much with leaky cars, put some of your Patent Pafnt upon them, and so far as my knowledge extends, I can cheerfully recommend it to any who wish a decrease of any sort. dry roof of any sort. Yours, &c., H. COFFIN, Superintendent. Mamphis, TENN., Jan. 14, 1857. To THE PULLIC.—W. Bennett, made application to us last summer to cover our buildings with West's Galvanic Cement; it being a new thing, we thought we would try it; had it applied to our Blacksmith Shop, and Engine House. attached to the Fo indry. They have proved all required of a water proof roof, having withstood some of the great-

est storms, and are given good satisfaction. We can only add, try it and you will be satisfied.

OURTIS & KNAPP, Iron Founders. Мкирия, Jan. 14, 1857 Mr. Bennett, has done some small amount of roofing for me in his peculiar way, with Cotton stuf, coated with a preparation the basis of which appears to be a Coal Tar. It is a very effectual and light roof, and appears to promise considerable durability, from the preservative qualities of the composition, which penetrates the cloth and protects it from the influence of the air and water. The Composition does not liquify and run from the effects of the heat of the sun in summer; nor does it harden and crack from the induence in the cold of winter.

PATENT ELASTIC FIRE & WATER-PROOF CEMENT ROOFING.

THE undersigned is prepared to introduce into use in Tennessee W. E. CHILDS & CO.'S PATENT ZLASTIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Railroad Co panies, and the public to examine its super ARCHITECTS AND BUILDERS should not fall to examine this Roofing, as it is better and cheaper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, clastic, and flexible. It contracts and expands with the changes of the atmos-phere, and will neither evaporate, crack nor rot; and, as to phere, and will neither evaporate, crack nor rot; and, as to its durability, there is no question.

It is practically imporishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good heathing, old shingles, tar and gravel, tin, sinc, copper, or from roofs—it making no difference how steep or flat they may befor seven dollars per one hundred square feet; it being far theaper than any Roof of the old style, and we are sure it will live better satisfaction. will give better satisfaction.

It will also be found to be the best thing ever invented to

It will also be found to be the best thing ever invented to sover or mend old leaky tin, tar and gravelroofs, or around thinneys, scuttles, dormar windows, and gutters, where the tin is rusted through. This Coment can be put on to last as long as stone, and form a perfect adhesion to any object to which it is applied. Tin Roofs can be painted over (and warranted not to leak) at two dollars and fifty cents per hundred square feet, which is cheaper and much better than paint. This Roofing will be found to be the best theng for covering large stook where they are exposed to fir—such as Steam Mills, Saw Mills, Factories, Railroad Cars, Bridges, Depots, Station Houses, Steamboat Decka, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint n it, it presents no chance for fire to communicate, and any ight substance will burn out without igniting.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success smong them, I now offer it to the Ameoican public, knowing that its truly wonderful n.edicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spir ts, or other forms of discipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, the weak and low spirited it will prove a grateful aromatic cordial, possessed of singular remedial properties.

The great popularity of this deligh ful Aroma has induced many imitations, which the public should guard against purchasing.
